

With over 30 years experience providing Radiation Protection Advice, IRS is your one-stop solution to all your radiation protection needs.

Service specification:

IRS will provide the client with a suitably qualified and experienced Medical Physics Expert (MPE) in accordance with the recommendations of the Ionising Radiations (Medical Exposure) Regulations 2000 (IRMER 2000). IRS has been recognised as an RPA Body by the Health and Safety Executive (HSE).

The Medical Physics Expert shall be involved for consultation and audit in all aspects of the implementation and compliance with IRMER 2000. eg :

- Schedule 1 procedures and others where applicable,
- Quality Control
- Education and Training Programmes.
- Measurement and Maintenance of Diagnostic Reference Levels.
- Equipment Inventories.
- Audit of written procedures.
- Optimisation, including patient dosimetry and quality assurance,
- Advice on matters relating to radiation protection concerning medical exposure.
